Appendix A: Important Information

City of Toronto Municipal Code, Chapter 545 and 520 requires all food premises to do the following:

- Post the food safety inspection notice in an obvious place clearly visible to the public, at or near the entrance of the establishment

City of Toronto Municipal Code, Chapter 545 requires eating and drinking establishments (i.e., every place where) food items intended for human consumption are made for sale, offered for sale, stored or sold) to do the following:

- Post the Toronto eating or drinking establishment license issued by the Toronto Municipal Licensing and Standards Division next to the food safety inspection notice
- Produce copies of the Toronto Public Health Food Safety Inspection Reports relating to the currently posted food safety inspection notice, when requested by any person
- Promptly notify the Toronto Municipal Licensing and Standards Division if there is a change in the management or control of the establishment
- Notify the Toronto Municipal Licensing and Standards Division of any change or changes to the operation of the business that may result in “risk classification changes,” at least 30 days prior to the change.

When a Public Health Inspector visits your food premises for an inspection, the inspector will use a Food Safety Inspection Report form to check whether your food premises meets the requirements detailed in the Food Premises Regulation.

The DineSafe Inspection system divides infractions into three categories (minor, significant and crucial) depending on their potential risk to health. The results of an inspection (i.e. inspection status) will depend on the types of infractions that are noted during the inspection. Infraction(s) occur when a food premises does not comply with the requirements in the Food Premises Regulation.

When the inspector has completed the inspection, your food premises will receive one of three food safety inspection notices:

- a PASS (when no infractions or only minor infractions are observed)
- a CONDITIONAL PASS (when significant and/or crucial infractions are observed)
- a CLOSED (when crucial infractions result in an order to close your food premises)

INSTRUCTIONS TO POST FOOD SAFETY INSPECTION NOTICE

Under City of Toronto Municipal Code, Chapter 545 and 520, you are required to post and keep posted in a conspicuous place clearly visible to the members of the public, at or near the entrance of the above noted food premises, the most recent food safety inspection notice that has been issued to you by the Medical Officer of Health (or her / his designate). All notices will include the status from the previous inspection and indication of any enforcement action.

Please be advised that failure to post the said sign will result in legal action against you under section 30-1(3) of the City of Toronto Municipal Code, Chapter 545. **A conviction under this charge may result in a fine of up to \$25,000 (for individuals), \$50,000 (for corporations) and/or a closure order effective for up to two years.**

Inspection results (pass, conditional pass, closed) for each eating and drinking establishment will also be posted on the Toronto Public Health Dine Safe web site at www.city.toronto.on.ca.

Glossary of Terms

Hazard Analysis Critical Control Point (HACCP) Audit During some types of inspections, public health inspectors will conduct HACCP audits. During this process the inspector will observe the preparation of one or more food items through critical control points to determine if the food is being prepared in a safe manner.

Certified Food Handler (CFH) Every owner/operator of a food establishment, as defined by City of Toronto Municipal Code, Chapter 545, must ensure that there is, at all times when the establishment is operating, at least one (1) Certified Food Handler (CFH) is working in a supervisory capacity in each area of the premises where food is prepared, processed, served, packaged or stored.
